

Egg-straordinary Outdoor Art Project

The Egg-straordinary Outdoor Art Project originated with the [Sawnee Womans Club](#) in 2008.

Long-time SWC members and Arts Department Chairs, Kristin Joyner and Debbi Little, gathered support for the project from other community agencies and non-profits.

The Project was supported by the Sawnee Womans Club, Forsyth County Parks and Recreation, Sawnee Artists Association and the Forsyth County Arts Alliance.

Why eggs?

SWC chose eggs because Forsyth County has a long history in the poultry business. The project was designed to beautify the local community and unite several groups into a common appreciation for the Arts.

How are the eggs "hatched"?

The eggs are 3-by-5 feet and made of fiberglass. The molds were designed by Larry Hutto of Timeless Architectural, Inc. The eggs are painted by volunteers from the sponsor organization or partner artists, then sealed by paint technology students and instructors at Lanier Technical College. Eggs are installed through a partnership with the Forsyth County Parks and Recreation department.

Where are the eggs?

Of the 25 eggs originally commissioned, 23 are complete and installed. Others are still being painted by their sponsor organizations and partner artists. Take an "egg-sighting" adventure around Forsyth County and see them all!
